LADY DE JAMETTE.

The Handsomest Harness Horse in the

The members of the Hillshoro Fair Board, who are always alive and up with the times, have just completed by special arrangement for this world-wide famous mare to be present at our Fair. Of course we are aware that 499 of our readers out of 500 would not know what Lady de Jamette is, and it is to enlighten them that these few lines appear. From the Board we learn that Lady de Jamette is a bay mare sixteen hands high, without a white hair. She is twelve years old, sired by the great Kentucky show horse, Indian Chief, 1st visiting her sister, Mrs. Lewis Holmes. Skinner's Joe, sire of the dam of J. We suppose and hope that on next Friday, the day of the regular harness ring, that the sight-seeing crowd will be on hand to see this beautiful animal, and we regret that her appearance is set for the last day, and that the Fair Board will arrange it so that our people can be treated with a sight of her before Friday. From this point the baggage had to be moved to the east side of the river by hand, via a foot bridge that is four or five feet lower than the river banks. The applicants for the job were numerous, the lowest figure of fered being \$1.50. After looking over the route and the pile of baggage being taken into consideration, the price was small enough. To give the reader an idea of the amount of baggage it is only necessary to mention the fact that there were ten ladies in the party. The freight being finally landed on the east bank the next thing is to get transportation to the top of the hill. This took \$2.00 of good and lawful money and three hours of precious time. Then the selection of quarters looked like a very hard and far from satisfactory job; but when one has such a reliable friend at court as Dr. Ketcham it does not take long to find smooth sailing, even though the storm long to wait for the greatest sight of a be raging. From the condensed accoun of an experience it is plain to be seen that any one coming here with much baggage had better look ahead a little. It will be best for parties intending to of the teachers and most of the pupils visit the camp grounds and bring a large of the Presbyterian Sunday school, with amount of baggage, say an ordinary a few of the parents and friends of the wagon load, to have it put off at Love land and get a team there to deliver it on the grounds. This will save trouble

and expense. This is, perhaps, the most beautiful camp ground in the country, being located on a range of high hills rising from the Miami valley, that is noted for its beauty. There are deep and picturesque ravines; the trees are tall, straight and graceful; black oaks, with a sprinkling of ash and hickory; many of these trees have not a branch or knot for from dinia, give you an hour and a half or 30 to 50 feet from the ground, and are as two hours there, bringing you home by straight and trim as a marble shaft; wa ter is supplied from a reservoir, hydrants being put in convenient places all over the grounds. The closing of the gates on Sabbath day, has caused no little talk among the Metha Westin West The closing of the gates on Sabbath day has caused no little talk among the people here. A majority of the people on the camp ground are opposed to the closing of the gates on the Sabbath. They would rather have them open to all that come. A train load of people arrived at the gates on Sunday at 10 o'clock. Finding the gates closed they proceeded to climb the fence. This being rather difficult they soon pulled off a few boards and came through. Chief of Police was on the spot, but had instructions to offer no resistance, but get the names of the leaders and attend to their cases later.

Rev. Sam Jones, for some reason, did not arrive Sunday as was expected. Nobody appeared to be very badly disappointed. Saturday morning, July 31st, came in rather gloomy, which caused a large number to be disappointed, as the Presbyterian and Baptist Sabbath schools had made elaborate preparations to attend the celebration at Union. After it quit raining the schools were proparing to form a delegation, when an accident occurred which cast a gloom over the whole community. Mr. Johnny Custer was chosen as one of the marshals of the Presbyterian school. Just before the wagons were loaded his horse became unruly and reared up and fell backward, almost upon the rider, and then rolled over on the young man. Before the true facts were known it was thought it was a fatal accident, but further developments proved that he was not so badly hurt as was thought at first. At present our doctor says there is no danger. His parents and sister fainted, which caused the excitement to be more intense. The schools abandoned going to the celebration. There were five wagons nicely decorated, having six horses attached to each.
